ABOUT US

TMD HOLDINGS IS A MULTIFACETED MANUFACTURING COMPANY PROVIDING QUALITY PRODUCTS AND FAIR PRICING WITH SUPERIOR CUSTOMER SERVICE.

For over 16 years, TMD Holdings has serviced national retailers, global brands, telecommunication companies, the educational space, food services, the medical field, and government agencies.

With owned factories in China and a global presence in offices, showrooms, and warehousing; TMD Holdings is able to meet and exceed the expectations presented in today's fast paced, ever changing marketplace.

In addition, TMD Holdings offers a creative in-house design team and global supply chain expertise. TMD Holdings maintains social compliance, consumer safety, and quality standards. Our customers can be assured that all TMD Holdings products are tested during the development process at independent third party laboratories.

WHY US

INTEGRITY

At TMD, Integrity is our universal principle. We do everything we can to make doing business with us easy and straightforward in an effort to build trust with our customers and clients and create transparency.

Building trust through consistent reliable delivery for our clients is of utmost importance as your strategic partner.

ACCOUNTABILITY

For us, accountability means being there for our customers no matter what the circumstances. Inevitably, challenges come up during the course of business and if it does, TMD goes the extra mile to make sure client needs are met. We believe fulfilling a customer's needs and supporting their efforts is integral above all else to ensure a long standing relationship.

QUALITY

Quality is of paramount concern to the TMD team and we stand behind each and every product we ship. TMD champions a "closed-loop" approach to Quality through extensive insight and oversight from concept, design and product development all the way through the product engineering, manufacturing and quality control throughout our transparent supply chain.

COLLABORATION

Our people make us what we are and is the reason for every project's success. Our diverse team members allow us to accelerate innovation, improve agility, increase adaptability and cut costs all at once while fostering an environment of communication and shared goals and a collective determination to deliver for our customers.

SOLUTIONS

Our Total 360° Solutions combine best in class trading services with diverse skill-sets and world class retail experience. We provide our customers with trust worthy product-centric service offerings that countless Fortune 1000 Companies have depended on for over a decade.

CREATIVE

At TMD we believe Creativity through Design is an integral part of our offering. We love the end product, the solution, a problem solved resulting through efficient and well planned execution and understanding the process of getting there. We see design driving growth and innovation all over the world and have made it a key service offering to bring your concepts to reality.

MANUFACTURING & SOURCING

Many companies treat product development as if it were similar to manufacturing, but the two are profoundly different. In the world of manufacturing physical objects, tasks are repetitive, activities are predictable. In product development, tasks are unique and project requirements constantly change requiring a company that can adapt to client needs. TMD has the unique ability to act as an extension of our client's purchasing departments. Our extensive knowledge of materials sourcing allows us to approach any custom manufacturing job with confidence.
